**METHOD OF OPERATING A HYBRID POWER SYSTEM
WITHIN A STATE OF CHARGE WINDOW**

Examiner: Yuan

S.N. 10/700,973

Art Unit: 1745

October 16, 2006

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6, drawn to a method of controlling the operation of hybrid power system for supplying power to a load, classified in class 429, subclass 13.
 - II. Claims 7-9, drawn to a method of maintaining the state of charge of the charge carrier within a preselected range, classified in class 429, subclass 13.
 - III. Claims 10-14, drawn to a method of maintaining the battery pack's state-of-charge within a preselected range, classified in class 429, subclass 13.
 - IV. Claims 15-19, drawn to reducing fuel consumption in a fuel cell hybrid electric vehicle, classified in class 429, subclass 13.

The inventions are distinct, each from the other because of the following reason:

2. Inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions as stated above. Therefore, the inventions are distinct.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
